OBJECTIVE

Third-semester Artificial Intelligence & Data Science student with a strong foundation in programming and web development, seeking an internship/entry-level opportunity to apply skills in Python, Java, and web technologies to build practical, real-world software solutions

EDUCATION

Amal Jyothi College of Engineering
B.Tech in Artificial Intelligence & Data Science (AI & DS) [2025-29]
Semester 3 (Ongoing) | CGPA: 8.94

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript
Libraries: NumPy, Matplotlib
Web Technologies: HTML, CSS
Core Concepts: Data Structures (using Python)

PROJECTS

Campus Management System [Campus Management System]

- Built a role-based (Admin/Faculty/Student) Campus Management System in Python with a CLI interface, managing student records, attendance, grades, library, and fee billing via a custom flat-file database.
- Implemented core features: attendance tracking with 75% threshold alerts, GPA/rank computation, and automated library fine calculation.
- Used NumPy and Matplotlib to generate academic performance statistics and visual reports (attendance trends, grade distributions, fee collection).

Medière — Smart Stock & Real-Time Pharmacy Supply Platform [Mediere]

- Developed a multi-page web application for pharmacy inventory and supplier management, featuring a 105+ medicine dataset and a directory of 20 verified Indian pharmaceutical suppliers.
- Built an AI-based supplier recommendation engine to compare distributors by delivery speed and wholesale price, with one-click ordering and direct contact integration.
- Implemented multi-pharmacy authentication with account-isolated local storage, and designed 6 pages covering inventory CRUD, order tracking, supplier directory, and support ticketing.
- Tech stack: HTML, CSS, JavaScript, browser LocalStorage (client-side data persistence).

CERTIFICATIONS & ACHIEVEMENTS

- Secured the Director's Honours Award in Semester 1 (8.82 SGPA) and Semester 2 (9.07 SGPA) for academic excellence, awarded to students achieving an SGPA of 8.5 or above.
